LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are given at the end of the main (author) entry of each book. When the card for a serial publication or a many volumed set appearing at intervals is printed as an open enery card, the number is enclosed in curves ( ). Where the card number is enclosed in brackets [ ] it indicates that the card at Library of Congress is for an edition of the book other than one listed; or is for the English edition when two numbers are given.

When a book is entered before the Library of Congress card number can be procured, the main entry is reentered in a succeeding issue of the Index with the order number attached.

For further information apply to the Card Division of the Library of Congress, Washington 25, D.C.

PREFACE

This volume is a *permanent* record of books published during the two years 1961-1962. Like its predecessors in the series, it aims to be a complete bibliography of works in English for the years covered—exclusive of government documents, maps, sheet music, cheap and paper bound editions, pamphlets, tracts, propaganda, and other issues of local, fugitive, or ephemeral nature. Certain other books have been omitted because it was impossible to find the sources from which they could be obtained.

Books published before 1961 or early in 1963 may appear in this volume if the information was received within the period 1961-1962. Entries appear here, too, for those books, listed in previous permanent volumes of CUMULATIVE BOOK INDEX, for which we have received notice of a correction in publisher. These entries are designated (corr pub).

Prices quoted are normally list prices; in many instances, however the prices of library bindings are net prices. All prices are subject to change. No record of price changes is made in CUMULATIVE BOOK INDEX.

No attempt has been made to check out-of-print items. Occasionally when such information was available, it was indicated by the usual sign: op. It has likewise been impossible to trace books of publishers who have recently gone out of business.

Grateful acknowledgment is made to all who have helped with the preparation of this volume, including Katherine R. Barnes, Robert Freeman, and Pamela L. Pickering.
